STARTUP – IDEA PACKAGE

Startup Founders with early-stage concepts.

From : **\$3,800.00 USD / Full Package** (Save 52.5% vs Standard Rate)

Expose the idea before you build — save time, money, and energy by testing your concept with real data and expert insights.

We help startups turn their initial vision into a functional first product that accurately reflects their idea, purpose, and value proposition. This can be an MVP (Minimum Viable Product), an interactive prototype, or a beta version ready for user testing.

What we offer?

We offer a complete package that includes the development of up to five (5) atomic user stories, for a fixed price, and all the accompanying support for the engineers who will build them.

Requirement Definition & Prioritization

- Kick-off session to understand the idea, the problem it solves, and the target audience.
- Co-definition of the Checkpoint that will mark success for the first product.
- Our engineers have the expertise to deal with this kind of situations—whether it's technical ambiguity, early-stage uncertainty, or complex product decisions.

Idea-Centered Design

- Wireframes and prototypes that capture the essence of the solution.
- Fast iterations with continuous feedback from the founding team.
- Initial visual identity aligned with the startup's purpose.

Key Benefits

- Price: Save 52.5% vs Standard Rate.
- Speed: You'll have something tangible in just a few weeks.
- Idea Fidelity: Your vision stays at the center of the process.
- Flexibility: We adapt to your needs and resources.
- Expert Guidance: We don't just build—we think with you.

Included

- Development of up to five (5) User Stories – which means up to 5 low-complex and atomic requirements like:
 - List static-digital-products like songs.
 - Explore an excerpt and other details.
 - Pay it.
 - Send the download link to your email.
 - Download.
- Free Wireframing and prototyping to test your concept before development.
- Optional:
 - Free UI/UX Design of one atomic user story (applicable only to projects requiring design work) to help you visualize your product.
 - For a complete design package, please refer to our [UI/UX Design offers](#).
- Daily Status Emails: The engineer sends a status emails covering what was done in the last 24 hours, what will be done in the next 24 hours, includes blockers or important points.
- End Of Sprint (EOS) Report which summarize the progress in a period of time that could be a sprint, a week, other, including statistics, charts, pictures, and pointing to ready-to-test environments.
- Free Dedicated Agile Project Manager: Keeping your project aligned, on track, and moving fast.
- Launching with confidence: Free Deployment to get your MVP live quickly and reliably in two (2) environments.
- Smooth transition: Post-launch support to ensure everything runs seamlessly. Contact [Sales](#) for more details.
